Removing folders or files: If there is a folder or file in the archive that you do not want to include, you can remove it by simply selecting the item in either the explorer (left pane) or file list (right pane) and clicking the Remove button from the toolbar or selecting Remove from the Edit menu. You can also remove the selected item by simply pressing the delete key on your keyboard. Note: It is not possible to delete the root (topmost) folder from within Express Zip.
